

Project Objectives

Date	18 November 2022
Team ID	PNT2022TMID34754
Project Name	Exploratory Analysis of Rainfall Data in India for Agriculture
Maximum Marks	4 Marks

- To understand the problem to classify if it is a regression or a classification kind of problem.
- To download the dataset (WeatherAUS.csv) and pre-process/clean the data using different data preprocessing techniques.
- To analyze or get insights into data through visualization.
- Applying different algorithms according to the dataset and based on visualization.
- To know how to find the accuracy of the model.
- To deploy our machine learning model in IBM Watson cloud.
- To build a web application using the Flask framework.
